

ExecuteTorqueControlTask

```
graph LR; A[ExecuteTorqueControlTask] --> B[CalculateOptimalTorque]
```

A flowchart consisting of two rectangular boxes connected by a blue arrow. The first box on the left is gray and contains the text 'ExecuteTorqueControlTask'. A blue arrow points from the right side of this box to the left side of the second box. The second box on the right is white with a black border and contains the text 'CalculateOptimalTorque'.

CalculateOptimalTorque
